

New Smartcurve™ Interactive Touchscreen Kiosk

Benefits

- Perfect for reducing queues in busy reception areas
- Reduce staffing costs. Staff are freed up to focus on more productive tasks
- Custom branded to fit your in-house designs
- Upselling of related products and services
- More accurate personal data when keyed in by the customer themselves
- Up to 4 different coloured wristbands
- New smartcard credential dispensing when signing up new members

Features

- **Smart, Attractive Design** – Easy to sell to operating companies, leisure club owners etc.
- **Modern, cutting edge look** – would look good in any leisure centre, hotel foyer, shop or fast food outlet.
- **High Level of modularity** – Easy to integrate a wide range of peripheral devices, such as Payment terminals.
- **Superb branding opportunities** – vinyl under glass to any design you wish, very flexible and highly effective. Extremely durable. Will still look good after years of use, unlike a vinyl wrap.
- **Large 22" touchscreen**. Brighter, more attractive, easier to use. Improves customer experience.
- **New wristband printer**. Easier to change media. No parts to lose! Improves user experience.
- **Increased wristband capacity**. Up to 450 from 250. Improved design, removes chance of adhesive clogging cutter. Improved reliability. Less frequent reel changes.
- **Ability to mount up to 4 wristband printers**. Can now offer multi-coloured time-slot monitoring.
- **Wide, front opening door**. Easy access to all internal parts, easier to change media, easy for engineer access.
- **All in one screen and PC**. Fewer parts. Greater reliability. Neater internal wiring.
